PROFESSIONAL SUMMARY

Final-year Computer Science student (CGPA 3.59) with hands-on experience building production-ready web applications and AI-driven intelligent systems. Skilled in full-stack development (MERN), modern frontend frameworks, Database, and backend integration. Scored in the 95.3rd percentile in the HEC National Skill Competency Test (NSCT), demonstrating strong academic and technical aptitude.

EDUCATION

B.S. (Hons.) Computer Science

National University of Modern Languages (NUML), Islamabad
Thesis: Intelligent Wealth Management System Using Reinforcement Learning
HEC National Skill Competency Test (NSCT) — **95.3rd Percentile**

CGPA: 3.59

Sep 2022 – Jul 2026

F.Sc. Pre-Engineering

BISE Lahore

Grade A

2020 – 2022

WORK EXPERIENCE

Software Developer (AI/ML) — NexoDynamix

2025 – Present

- Led development on NexoHealth (ERM & Patient Management) and NexoWealth (AI-based Asset/Wealth Management) platforms.
- Utilized machine learning models and data-processing pipelines to build real-world intelligent systems.
- Collaborated cross-functionally to deliver scalable, compliance-aware healthcare and finance solutions.

MERN Stack Intern — Soplex Technologies

Jul 2025 – Sep 2025

- Built scalable, data-driven full-stack applications using MongoDB, Express.js, React, and Node.js.
- Designed and integrated RESTful APIs in an agile environment with a focus on performance and structured system design.

Social Media Manager — Pictoria

Jan 2023 – Present

- Designed and executed a social media strategy that achieved a 32% increase in brand engagement and awareness.
- Managed day-to-day operations across all assigned social media accounts.

PROJECTS

1. Intelligent Wealth Management (iWM) <https://iwmhub.com/>

- Smart personal finance system with real-time asset tracking, expense categorization, and intelligent portfolio insights.
- Built with React, Firebase, and Tailwind CSS; features dynamic dashboards, data visualization, and automated data handling.
- Delivers personalized financial recommendations to support data-driven decision-making.

2. NexoHealth — Enterprise Resource & Patient Management <https://health.nexodynamix.com/>

- Core AI-driven ERM module for healthcare: optimized patient scheduling, resource allocation, and large-scale sensitive data handling.
- Integrated complex backend logic to maintain regulatory compliance across workflows.

3. Mafazat ul Hayat — Hospital Management System & Patient Portal <https://mafazatulhayat.com/>

- Full-stack CMS for a non-profit hospital with 12 admin modules (doctors, appointments, lab reports, careers, media gallery, blog, and more)
- Built with React.js; CMS supports complete content management including creation, editing, and publishing workflows.
- Role-based auth (admin/patient) with a patient portal for appointments, lab reports, and downloadable resources
- Private S3 file storage with automatic image compression and presigned URL caching

4. SehatX — Healthcare Information Website <https://sehatx.com/>

- Comprehensive healthcare platform with educational content, medical resources, and a full admin-controlled CMS.
- Built with React + Vite, Firebase Authentication, Firestore, and Storage; supports public and admin roles.

5. PinhCare — React-Based Healthcare Website <https://pinhcare.com/>

- Lightweight digital healthcare interface focused on service accessibility and clean UX design.
- Built with React and Firebase; tested feasibility for a minimal healthcare product prototype.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, SQL
Frontend	React.js, Tailwind CSS, Vite, Chart.js, HTML/CSS
Backend	Node.js, Express.js, RESTful APIs
Databases	Firestore, Firebase Realtime DB, MongoDB, Supabase
Tools	Git, GitHub, Postman, Figma
Concepts	State Management (Hooks, Context API), Authentication, API Integration, Agile/Scrum
AI / ML	Machine Learning, Reinforcement Learning, Data Processing

LEADERSHIP & CO-CURRICULAR ACTIVITIES

Vice President — ACM NUML Lahore Chapter

Organised technical workshops, coding events, and industry–academia engagement sessions; fostered a collaborative learning environment for CS students.

Core Team Member — Google Developer Student Clubs (GDSC) NUML Lahore

Planned and executed tech events, community meetups, and hands-on software development sessions.

Member — NUML Women in Tech

Actively participated in initiatives promoting women’s involvement in computing and technology.
